### About

I'm a Front-End Developer and Instructor with a background in small business operation and management. My strengths include creative problem solving, independent learning, and breaking problems down into their smallest steps. I love nothing more than a complex challenge and I am thrilled to see where my continued learning takes me next. I want to take the skills and knowledge that I've gained in business, management and programming and use them in new and exciting ways!

### Experience

#### Web Developer/Instructor

HackerYou / July 2019 - Present

- Lead Instructor for HTML/CSS classes of up to 40 students in an accelerated format
- Lead Mentor and Instructor for JavaScript courses teaching programming fundamentals, jQuery, REST API's and React
- Focused on beginner adult learning, and teaching industry best practices
- Developed and built exercises and lessons in HTML, CSS and JavaScript for Accelerated and Part-time curricula

#### Mentor

Canada Learning Code / July 2019

- Provided support and for 20 female-identified, trans, and non-binary youth over a two day Hackathon and assisted them in solving a real world problem through building their first website.

#### Co-Founder & Owner

Bloomer's Bakery & Restaurant / Feb 2014 - Jan 2019

- Grew and managed a team of 25 staff including hiring, training, reviewing, scheduling, and payroll.
- Built and maintained relationships with dozens of vendors, distributors and, wholesale clients.
- Worked towards a million dollar annual sales target and nearly met it in our fifth year and final year.
- Utilized tools such as Ambur Point-of-Sale, SquareSpace, Microsoft Office and Google Docs
